Electronic image enhancements - e-mail your image!

The capture of digital images remains the primary objective in preparation of media material. However, many editors and creatives just do not have the time to entertain and explore the full potential of digital material presented after the shoot. Lets explore some creative ideas that have not been published!

1. E-mail high / medium resolution image to shootdigital@icon.co.za
2. Describe the effect / finish that you would like to have done to your image.
3. Request a quotation for related creative effects, plus your due date and time.
4. Payment via electronic fund transfer; or open an account.
5. Your completed image to be e-mailed or couriered to you, dependent on final file size.
